Summary

Business Information Systems graduate bridging technical development and creative design. Experienced as a Full-Stack Developer and Multimedia Designer, with hands-on expertise in the MERN stack, digital asset creation, and AI-driven visualization. Track record of delivering end-to-end web platforms and immersive visual experiences that solve real business problems and drive client engagement.

Education

Bachelor's Degree in Business Information Systems
Higher School of Digital Economy, University of Manouba

09/2018 – 05/2025

Work Experience

Unilumin

Multimedia Designer

01/2026 – 05/2026

- Produced immersive 3D naked-eye visual simulations for showroom LED screens, tailored to specific client environments and presented in high-stakes pitches.
- Designed product catalogs, promotional posters, and AI-generated imagery that directly supported the sales team in closing client deals.
- Built and launched the company website from scratch, establishing a modern and cohesive digital brand identity.

Fiesta-Events

Full-Stack Developer

06/2025 – 12/2025

- Architected and delivered a SaaS platform for the events industry, enabling businesses to manage scheduling, CRM, permissions, and invoicing within a single system.
- Engineered flexible database schemas and role-based access control to serve multiple user types from one codebase.
- Built a high-performance React/Vite/Tailwind dashboard with secure authentication (HttpOnly JWT), reducing common session vulnerabilities.
- Implemented automated PDF invoicing, eliminating manual billing workflows for client businesses.

Terkina

Photo Editor

05/2022 – 08/2025

- Retouched and color-graded 2,000+ images per project using Adobe Photoshop and Lightroom, consistently meeting tight delivery deadlines.
- Collaborated with the creative team to develop and maintain a unified visual style across campaigns, strengthening brand consistency.
- Contributed to marketing campaigns that measurably improved clients' visual engagement metrics.

Tunisair

Full-Stack Developer & UI/UX Designer (Internship)

02/2024 – 05/2024

- Designed and developed a responsive internal web application using the MERN stack (MongoDB, Express, React, Node.js).
- Redesigned key user flows to reduce friction and improve task completion, receiving positive feedback from both users and business stakeholders.
- Collaborated cross-functionally with developers and managers to align technical deliverables with business requirements.

I See Agency

Graphic Designer

02/2022 – 06/2022

- Created Digital and print assets — social media visuals, promotional materials, and brand collateral — across multiple concurrent client projects.
- Maintained high creative standards while managing tight deadlines in a fast-paced agency environment.

NextWave

07/2022 – 02/2023

Brand Ambassador

- Represented the brand at events and in-store, contributing to increased local sales through direct customer engagement.
- Collected and reported structured customer feedback to the sales team, informing ongoing strategy improvements.

Twilight Prod

2021 – 2022

Photography Assistant

- Supported lead photographer on-set with studio setup, equipment management, and styling coordination.
- Improved shoot efficiency through proactive logistical planning and hands-on creative assistance.
